

CSCE Whitman Wright Award Given to F.J. Vecchio

Professor Frank J. Vecchio is the recipient of the Canadian Society of Civil Engineering (CSCE) Whitman Wright Award for 2011. The award is meant to recognize ‘outstanding contributions to the advancement of Innovation and Information Technology in Civil Engineering’ and was bestowed to Professor Vecchio primarily for his work in the development of software for nonlinear analysis of reinforced concrete structures. The award presentation was made at the CSCE annual conference in Ottawa in June, 2011.
