

Wason Medal Awarded to Saatci and Vecchio

Selcuk Saatci and Frank Vecchio were awarded the Wason Medal for Most Meritorious Paper (2011) by the American Concrete Institute at the annual convention in Tampa in April 2011. The medal was given in recognition of the ACI Structural Journal article entitled 'Effects of Shear Mechanisms on Impact Behavior of Reinforced Concrete Beams', a paper which presents the details and findings from a comprehensive series of tests performed on large-scale beam specimens subjected to impact loads. Dr. Saatci is currently an assistant professor at the Izmir Institute of Technology, Turkey.
