Notes: All product prices shown in Canadian Dollars (CAD); applicable taxes and processing fees are extra.
 Prices include a two-year Maintenance Contract permitting free upgrades to software updates.
 VecTor Nonlinear Analysis Program (NAP) purchases include *limited* software user support.
 Educational refers to use by schools, universities and other educational institutions for primary purposes of teaching or nonprofit research.
 Commercial refers to use by organizations or individuals for paid activities or purposes other than education.
 Group License is limited to a maximum of 6 users within a single research group or department.
 Site License permits an unlimited number of users within the company or institution.
 Discounts are available for purchase of two or more bundles.

Please contact us (link to contact tab on website) to receive a formal quote and to inquire about discounted pricing for multi-license and multi-NAP software purchases, software renewals, and purchasing extended software user support.
